Standards Development Committee Seeks Public Input on Math/English Language Arts Standards

Flagstaff— The State Board of Education’s Standards Development Committee will be holding a public input meeting on Arizona’s Mathematics and English Language Arts Standards in Flagstaff on November 4 from 6:00-7:00pm at Flagstaff High School.

In March 2015, Governor Ducey tasked the State Board of Education with reviewing Arizona’s Math and English Language Arts Standards in order to ensure that the standards are vetted, approved and controlled by Arizona, and that they are the best for Arizona’s students.

In April 2015, the State Board of Education established the Arizona Academic Standards Development Committee to oversee the development of Arizona Mathematics Standards and Arizona English Language Arts Standards.

As part of the standards review process, county superintendents across the state will be hosting public meetings to allow for feedback to the Standards Development Committee on the current academic standards. For more information on Arizona’s K-12 Mathematics and English Language Arts Standards, please visit: <https://k12standards.az.gov/>
